

Magnetic Mount Antenna with 5m cable

RST715

RST715 – Magnetic mount with 5m antenna cable

Iridium antenna (RST715) is designed for Land based applications. Designed to work with Beam Iridium products and will work with other Iridium based devices. Antenna cable is included and attached to the antenna. The RST715 Iridium antenna also allows for easy removal and re-fit.

SPECIFICATIONS

FEATURES

Design	Iridium approved
	Designed for harsh environments
	Small and lightweight
	Aluminium Alloy Casting
	Easy to remove and re-fit
	Manufactured in the USA
	12 Month warranty

APPLICATIONS

Buildings
Homesteads
Cars
Trucks
Trains

SPECIFICATIONS

Frequency	1616 - 1626MHz
Polarization	Right Hand Circular
Axial Ratio Amplifier	3db Max
Impedance	50 OHMS
VSWR	< 2.0 : 1
Power Handling	7 Watts, 15% duty cycle
Finish	Base - A380 Aluminum Alloy Casting. Radome - xenoy
Weight	TBA
Altitude	20,000'
Connector	TNC
Cable	Includes 5m or 16.4 feet of LMR200 attached
Colour	Black
Operating Temp	-55°C to +85°C
	-67°F to 185°F
